

Korea Important Fisheries Heritage System No.3 Namhae Bamboo Weirs

Name. Namhae Bamboo Weirs

Date of Designation. December 16, 2015

Location. Samdong/Changseon-myeon, Namhae-gun, Gyeongsangnam-do, Republic of Korea (23 Bamboo Weirs, 537.2ha)

Features.

Namhae Bamboo Weirs

Namhae Bamboo Weirs is a traditional nature-friendly fishing system. It is known to be the only fishing operation in the Korea Peninsula for fishing with traps.

This operation has become the major means of living for anchovy fishing since the period of three kingdoms.
